Kathy Boivin, *Library Media Specialist Winston Churchill, Montgomery County Public Schools*
Andrea Christman, *Library Media Specialist, NBCT, Winston Churchill, Montgomery County Public Schools*
Lallitha John, *Social Studies Teacher, NBCT, Winston Churchill, Montgomery County Public Schools*
Valerie Mainwaring, *English Teacher, Winston Churchill, Montgomery County Public Schools*

Engage 21st Century learners with the powerful online research management device, *Noodletools*. Classroom teachers and media specialists collaborate to monitor students' individual progress as they complete the vital research process by utilizing the *Noodletools* data analysis option. Students share their works cited page and research notes with their teachers and media specialists, who in turn comment on the quality of the sources the students are using. *Noodletools* enables students to record, organize and synthesize information using online notecards. It is also a perfect solution for group projects because members can access their group's notes and citations as they research a topic.
