

MATH 6 SYLLABUS

Welcome back to what is sure to be a fun and exciting year! Your Math 6 teacher has high expectations of you, looking forward guiding you to success in this rigor filled course.

Teachers

Mrs. Dysinger
Heather_M_Dysinger@mcpsmd.org
Mr. Langrock
Fred_R_Langrock@mcpsmd.org
Mr. Malone
Glenn_A_Malone@mcpsmd.org

Expectations

- Teachers expect students to attempt all homework problems, regardless of whether the assignment is for assessment or for practice.
- Please come to class EACH day with your pencil, calculator, and paper. Other supplies will be recommended from time to time.
- Take advantage of extra help as needed. Feel free to ask for extra help at any time.

We are responsible for teaching, but you must take responsibility for your learning. How? Be sure to

- Do all assigned work on time; make up work missed from an absence in a timely fashion.
- Ask for help as needed.
- Write all assignments in your agenda/assignment book.
- Display appropriate 6th grade behavior in class at all times.

Grades

Summative assessments (end of unit) will count towards 25% of your grade; **Formative assessments** (quizzes and other assignments) will count towards 65% of your grade; Homework will count towards the final 10% of your grade. There will be no extra credit. For any assignment in which a student makes an attempt to meet the minimum requirements of the assignment, the teacher will enter a grade no lower than 50%.

All assignments are expected to be submitted by the due dates. Work turned in after the due date and prior to the deadline may be dropped no more than one letter grade or 10% of the grade. Due dates and deadlines for assignments in math are often the same

day. Work not turned in by the deadline will be considered missing and recorded as 0%.

Students will receive grades reflecting **Learning Skills**. Participation and Assignment Completion grades will be reflected on the report card.

Reassessments will be scheduled by the teacher and will only be given once. If an assignment is determined to be re-assessable, all students will be eligible for reassessment regardless of the grade on the original assignment provided they meet the requirements determined for the particular assessment. (IE: Complete original assignment, complete required assignments and complete reteaching opportunities as determined by the teacher.) Scores earned on the reassessment will **replace** the original grade.

Grades entered in a teacher's electronic gradebook are automatically uploaded to Edline on a nightly basis. Both students and parents should log into Edline regularly to check grades and missing assignments. Students are expected to know their grades, and what, if any, work is missing at all times. There should be no surprises about grades to students or parents; if so, please make sure you contact me. In addition, it would be extremely helpful to enter an active email address in both student and parent Edline accounts; they are used to provide class updates as well as other communication throughout the year.

Communication

One of the most useful ways we have to communicate is your child's data notebook. Please check this daily for information. I can also be reached by email or by calling the school (301-840-4660). In addition,

please check Edline regularly to know if you are missing work.

Please access Edline regularly thru the Montgomery Village Middle School website to check your progress and class information. If you need an Edline account, please contact the Edline administrator at Alice_Marable@mcpsmd.org

Timeline

- Unit 1: Graphing Data and Analyzing Statistics - 4 weeks
- Unit 2: Decimals and Fractions – 13 weeks
- Unit 3: Shapes and Their Properties – 7 weeks
- Unit 4: Algebra, Patterns and Functions– 7 weeks
- Unit 5: Probability – 3 weeks.

Calculators

It is strongly recommended that your child have his/her own *scientific calculator*, available at most retail stores for less than \$10.

Contact info:

Communication between parents and teachers is an important tool for student success. Contact your child's teacher when you have questions or concerns. If you have a general question about the math department, or a concern you can not resolve, please contact:
