General Information

ACCOMMODATIONS

On the first day of class, parents and/or legal guardians should provide the summer school site administrator with a copy of the accommodations included on the student's Individualized Education Program (IEP) or 504 Plan (if applicable). A special educator will be on site.

ATTENDANCE

The highly concentrated programs offered in the high school summer school sessions make full-time attendance necessary. Explanatory notes from parents will be required for absences and tardiness, and all cases will be subject to verification by the summer school site office. Students having more than two absences or six tardies will be withdrawn and no credit, no grade, and no refund will be given.

CANCELLATION OF COURSES

Classes that do not meet enrollment requirements will be cancelled. Students will be notified if their class is cancelled and given the opportunity to switch to another class and/or location or request a refund.

CLEARANCE

All fees must be paid and all books and materials loaned to students for the summer session must be returned to the appropriate teachers. Chromebooks must be returned to the student's home school.

Students are expected to comply with all rules and regulations of MCPS and their summer school site. A student who is suspended for more than two days will be withdrawn from the program. The summer school program is accelerated and a student who misses more than two days would be impacted educationally and would have difficulty passing the class.

ELIGIBLE STUDENT

The high school summer school is planned for students who are presently enrolled in Grades 9–12. Students who have completed Grade 8 may take a credit course with the recommendation of their home school principal (or designee) and the approval of their receiving high school's principal (or designee). Careful planning is critical to the high school program.

INTERIMS

Interims will be distributed to all students: Session 1—July 6, 2017 Session 2—July 26, 2017

Student eLearning-**Online Courses**

The Student eLearning program provides students with opportunities to obtain high school credit through online courses. These courses are taught by highly qualified MCPS teachers who conduct classes, give assignments, answer questions, lead discussions, enter grades, and communicate course content and student progress to parents. The teachers are dedicated to providing a successful online experience for each student.

Every MCPS online course requires a number of face-to-face sessions, which students must attend in order to receive credit in the course. Students who are highly motivated, have good time-management skills, and can work independently usually experience the most success in an online course. During summer courses, the same curriculum taught in a semester course is compacted within a 3-week period. Students should expect to spend 4-5 hours per day completing course assignments.

Comprehensive Health Education, Foundations of Technology, Foundations of Computer Science, and approved AP courses are being offered this summer. For more information on eLearning or to register for a course, see the eLearning website at www.montgomeryschoolsmd.org/ departments/onlinelearning. You also may direct your questions to Brian Anders, online course registrar, at Brian T Anders@ mcpsmd.org or by calling 301-279-3466.
