

“We Overcame”

Written by: Kirsten and Kayla Sinkler

We overcame hate and discrimination,
We overcame segregated laws and separation
We overcame the boundaries that set us apart,
To make way for the love that now rests in our hearts
We combatted the evils that tried to keep us down,
Now all across our country only love can be found
We took down the haters that tried to prove us wrong,
We took down those who only tried to ruin our American song

Now we live together in peace and harmony,
Proving that different races can exist in unity
Now we know that hate is bad,
And the only thing it does is make others sad
So we continue to join the fight,
That seeks to help others know what is right
Even though we aren't all the same,
We're all Americans. It's in the name
If we want to see a beautiful world, we have to start by using beautiful words:

We are all diverse, but we love each other the same.
