

Rockville High School Summer Math Packets 2024

For students and families interested in summer enrichment work ahead of their new math courses this coming fall, we have created the following summer math 'packets'.

This summer enrichment work can be accessed through the website [Delta Math](#). Students should register and sign-in with their MCPS Google account. Once signed in - students may join the course outlined below that best lines up with the math course they are registered to take in the Fall. In Delta Math students are able to see example problems, watch videos, and get feedback on if their answers are correct or incorrect.

If you have any questions, please contact the Math Resource Teacher, Ms. Carolyn Lane (Carolyn_M_Lane@mcpsmd.org).

Fall Math Course	Delta Math Join Code
Geometry	P46T-3E9H
Algebra 2	7XR3-XU82
Precalculus	C48V-3SB6
Calculus	KT47-6TK6
Statistics	GR2Y-E39X
