IMPORTANT NOTES REGARDING LONG-TERM TEACHER SUBSTITUTE ASSIGNMENTS

- Days 1 through 10 of any long-term substitute assignment are paid at the short-term substitute rate of pay.
- The long-term substitute rate of pay commences on the 11th day of the long-term substitute teaching assignment.
- Any break in service within the first 10 days of a long-term substitute assignment or any break in service after the 10th day (if other than the two consecutive duty days for illness certified by a doctor as provided by the MCEA contract) must be reported to ERSC by completing Part IV of [MCPS Form 445-17, Long-Term Teacher Substitute Assignment](#).
- Per MCEA contract, "Each substitute unit member will work the same number of normal hours worked by the unit member who is on leave or the scheduled number of hours for the vacant position. Starting and dismissal times shall be assigned by the principal."

Although the substitute will work the same number of hours as the teacher or scheduled number of hours for the vacancy, the FTE entered into the Human Resources Information System, which determines the number of hours that appear on the MM60 payroll screen, will not reflect this:

- A full-time long-term substitute teacher will be paid the long-term substitute teacher's daily rate of pay based on a 7-hour workday; the payroll screen will reflect a .875 FTE for a full-time long-term substitute.
- A long-term substitute teacher who is employed to replace a teacher who is less than full-time shall be paid the same percentage of the substitute teacher's daily rate of pay based on a 7-hour workday.
