MONTGOMERY COUNTY PUBLIC SCHOOLS

GO GREEN!!

KEEP THIS BULLETIN
through 8th Grade

January 2025

Dear Middle School Students:

Montgomery County Public Schools (MCPS) is committed to ensuring that every student graduates from high school prepared for college and career success. Our middle schools offer a diverse range of engaging courses and programs that will prepare you for the challenges of the 21st century, college, and the workplace. The 2025–2026 Guide to the Middle School Program presents an overview of courses that are designed to help you make the most of your academic experience. Please review this guide and consider it a useful tool as you, your parents/guardians, and your school counselor work together to plan a learning experience that will challenge and engage you. For additional information about the middle school curriculum, please visit <https://www.montgomeryschoolsmd.org/curriculum/middleschool/>.

Please remember that each middle school provides information about the specific course options that are available at that school. The information presented on individual school websites provides an overview of each school, including detailed program descriptions of magnet and signature programs, and career-themed course pathways offered in MCPS. Additionally, counselors are available to help advise students during the scheduling process to ensure they have the courses they need to graduate and support them in the college/career process.

Preparing you to become a productive citizen in a global society is a responsibility we take seriously. We are proud that MCPS employs outstanding, highly skilled, and dedicated teachers, administrators, school counselors, and support professionals to help you enhance your academic skills and prepare you to enter high school and the college or career you choose.

I encourage you to enroll in challenging courses in pursuit of your personal goals and extend my best wishes for your success as you prepare for the exciting and rewarding challenges ahead.

Sincerely,

Thomas W. Taylor, Ed.D., M.B.A.
Superintendent of Schools

This booklet provides an overview of the Montgomery County Public Schools (MCPS) middle school program. It includes a description of courses students will take in Grades 6, 7, and 8, as well as electives, after-school, and special programs that may be available to students.

“A high-quality education is the fundamental right of every child.”

—MCPS Board of Education vision

WELCOME TO MIDDLE SCHOOL

Middle school education offers a safe and supportive environment that nurtures students as they develop knowledge and skills for success in high school, college, and the workplace. All students have the opportunity to improve their skills for analyzing information, posing problems, seeking solutions, persevering, and collaborating, in order to take responsibility for their own learning and to reach their academic potential. All Montgomery County Public Schools (MCPS) middle schools offer rigorous and challenging academic programs, elective courses, special programs, extracurricular activities, and sports to address the academic, social, and emotional needs and characteristics of early adolescents.

This booklet provides an overview of the MCPS middle school program. It includes courses students will take in Grades 6, 7, and 8, as well as electives, after-school, and special programs that may be available to students. Not all programs and elective courses are offered at every school. Check with your child's school to see what opportunities they offer.

Additional information about courses offered at each grade level and course descriptions can be found at www.montgomeryschoolsmd.org/curriculum/index.aspx.

Parents/Guardians and Schools Working Together

We want all of our children to succeed in school and in life. Parents/guardians can support their children's progress and success by

- Setting high expectations for your children and helping them understand that school should be a top priority;
- Encouraging your child to complete challenging work;
- Staying informed of your child's academic progress and social and emotional well-being—dedicating a time each day to talk with each child;
- Providing a quiet place for your child to study and helping with homework;
- Supporting your child's appropriate use of technology by
 - Monitoring your child's use of the Internet, social media and networking, and cellphone and texting activities;
 - Limiting the amount of time your child watches television and discussing the programs with your child;
- Limiting the amount of your child's screen time on social media or other recreational platforms.

- Encouraging your child to participate in extracurricular and volunteer activities, as well as volunteering at your child's school;
- Establishing healthy habits at home;
- Encouraging your child to be an active participant rather than a passive recipient of school academic and extra-curricular activities in and out of the classroom.

In addition, you and your child should review together the MCPS *Student Code of Conduct*, *Student's Guide to Rights and Responsibilities in MCPS*, *Guidelines for Respecting Religious Diversity* and *Guidelines for Student Gender Identity* found at www.montgomeryschoolsmd.org/students/rights/, as well as your individual school's Code of Conduct.

School Websites

You will find valuable information about the school system and middle school in general at www.montgomeryschools.org and www.montgomeryschoolsmd.org/curriculum/middleschool/. To find information about your child's school, go to www.montgomeryschools.org, and click on Schools.

Immunization Requirements

Students who enter Grade 7 in the 2025–2026 school year, or who were new to MCPS and in Grades 8–12, must receive one dose of the Tetanus-diphtheria-acellular pertussis (Tdap) vaccination and one dose of the Meningococcal conjugate vaccination (MCV4) before the first day of school. Students who do not have the required vaccinations within 20 days of starting school must demonstrate proof of vaccination, positive titer results, or proof of a vaccination appointment. These vaccinations are required by the state of Maryland for school attendance. Acceptable proofs of vaccinations are a computer-generated vaccination record from the student's health-care provider or the Maryland Department of Health Immunization Certificate (Form 896), found www2.montgomeryschoolsmd.org/departments/forms/pdf/mdh_896_form.pdf, that is completed by the health-care provider. Additional information about immunization requirements can be found here: <https://health.maryland.gov/phpa/OIDEOR/IMMUN/pages/back-to-school-immunization-requirements.aspx>

WELCOME TO MIDDLE SCHOOL

Well-Rounded Curriculum Accountability

- The Maryland School Report Card Category for access to a well-rounded curriculum counts as 10 percent of a school's overall report card score. This holds schools and districts accountable for providing well-rounded course offerings and ensuring student enrollment in these courses in middle school.
- By definition, this identifies the percent of students enrolled in fine arts, physical education, health, and computational thinking in the middle school grade band (Grades 6-8), for a minimum of a marking-period course. Current interpretation from MSDE is that if a student enrolls in any of the approved courses in these areas at any point during Grades 6, 7, or 8, the student will have met the

well-rounded requirement. These courses may include full-year, semester, and quarter "rotation" offerings. All high school credit-bearing courses must be offered as a full year.

- Fine Arts and computational thinking requirements must be met through elective course choices. A full listing of courses that meet these requirements in computational thinking and fine arts can be found here: *Computational Thinking School Year 2024–2025 ESSA Accountability Approval List*. *Note:* Courses meeting the well-rounded requirements for computational thinking include courses in computer science, technology education, and engineering.
- The following planner and guidelines for Grades 6, 7, and 8 can serve as a resource for scheduling purposes.

GRADE 6 REQUIRED COURSES	GRADE 7 REQUIRED COURSES	GRADE 8 REQUIRED COURSES
English or ELD Mathematics Science Social Studies Physical Education/Health World Language or Elective Other Elective(s) (full-year, semester, or quarter rotation)	English or ELD Mathematics Science Social Studies Physical Education/ Health World Language or Elective Other Elective(s) (full year, semester, or quarter rotation)	English or ELD Mathematics Science Social Studies Physical Education/ Health World Language or Elective Other Elective(s) (full year, semester, or quarter rotation)
WELL-ROUNDED CURRICULUM REQUIREMENT		
Selected Fine Arts courses provide middle school students with credit in both Fine Arts and Computational Thinking on the Maryland School Report Card. See identified courses in the Fine Arts courses.		

Sample Student Planners

These planners are provided as examples to support schools with articulation and scheduling practices matched to the individual interests and needs of students.

STUDENT A: TRADITIONAL ELECTIVES SURVEY	STUDENT B: ENROLLMENT IN YEAR LONG VISUAL OR PERFORMING ARTS	STUDENT C: ENROLLMENT IN YEAR LONG STEM/COMPUTER SCIENCE
English or ELD Mathematics Science Social Studies Physical Education/Health World Language or Elective/Support Fine Arts or Computational Thinking courses by year, semester or quarter rotation.	English or ELD Mathematics Science Social Studies Physical Education/Health Computational Thinking World Language or Elective/Support Full-year Dance, Choral Music, General Music, Instrumental Music, Media Arts, Theatre, or Visual Art	English or ELD Mathematics Science Social Studies Physical Education/Health Fine Arts World Language or Elective/Support Full-year STEM, Computer Science, or Engineering

Note:

- The student samples provided are meant to ensure a wide range of options and well-rounded curriculum for students. Quarter or semester options should not replace existing year-long offerings in any course.
- The following courses meet both the Fine Arts and Computational requirements for well-rounded curriculum. Students must complete the full year course to satisfy the requirement.

WELCOME TO MIDDLE SCHOOL

Comprehensive School Counseling Program

The school counseling program is designed to maximize the academic success and personal growth of every student across the five domains of student development (academic, career, personal, interpersonal, and healthy development) established by national, state, and local guidelines. Through a comprehensive developmental school counseling program, each counselor works as a team member with school staff, parents/guardians, and the community to create a caring, supportive climate and atmosphere in which young adolescents can achieve academic success. The Middle School Counseling Programs are designed to help students attain optimal personal growth, acquire positive social skills and values, set appropriate career goals, and realize full academic potential to become productive, contributing members of the world community.

School Counseling Curriculum K–12 Counselors Implement the Counseling Program by Providing—

- Academic skills support
- Organizational, study, and test-taking skills
- Education in understanding self and others
- Peer relationships and effective social skills
- Communication, problem solving, decision making, and conflict resolution
- Career awareness, exploration, and planning
- Multicultural/diversity awareness

Individual Student Planning

- Goal setting/decision making
- Academic planning
- Career planning
- Education in understanding of self, including strengths, weaknesses, and self-management skills
- Transition planning

Responsive Services

- Individual and small-group counseling
- Individual/family/school crisis intervention
- Peer facilitation
- Consultation/collaboration
- Referrals

System Support

- Professional development
- Consultation, collaboration, and teaming
- Program management and operation

Attendance

A commitment to school attendance, on the part of both students and parents/guardians, is an essential component of a high-quality learning experience. Parents/guardians and school personnel are expected to do everything possible to ensure each student's regular attendance. Students should attend all scheduled classes and approved educational activities and are responsible for completing all assigned work on time. Students should be enrolled in a full-day program or spend a

comparable period of time in an alternative program or activity approved by the student's parent/guardian and principal. See MCPS Regulation JEA-RA, *Student Attendance*, at www2.montgomeryschoolsmd.org/departments/policy/pdf/jeara.pdf.

Grading and Reporting

The Board of Education is committed to maintaining rigorous performance and achievement standards for all students and to providing a fair process for evaluating and reporting student progress that is understandable to students and their parents/guardians and relevant for instructional purposes. The Board Policy IKA, *Grading and Reporting* (www.montgomeryschoolsmd.org/departments/policy/pdf/ikara.pdf), and accompanying MCPS Regulation IKA-RA, *Grading and Reporting* (www.montgomeryschoolsmd.org/departments/policy/pdf/ikara.pdf), set forth expectations and guidance. The office of the Associate Superintendent of Curriculum and Instructional Programs publishes procedures at www.montgomeryschoolsmd.org/departments/policy/pdf/ikara.pdf.

Procedures for Grading

Grading procedures will be applied consistently within and among schools. Grading practices must include clear and timely communication, alignment with curriculum, accurate reflection of student achievement, and fair representation of student performance. Grading practices must be fair and manageable and support effective teaching and learning. Grades on report cards reflect academic achievement in relation to course expectations, as outlined in the MCPS curriculum. Extra credit may not be used. Course specific procedures for grading are defined, used consistently, and explained clearly to students and parents/guardians in writing at the beginning of a semester or school year. Additional information about grading and reporting can be found at www.montgomeryschoolsmd.org/departments/policy/pdf/ikara.pdf.

Homework

Homework is important in a student's overall program. Teachers assign homework that is related to the curriculum. There are two categories of homework: Homework can either be in the 90% or 10% grading category, depending on the teacher's assignment and learning goals.

WELCOME TO MIDDLE SCHOOL

Timely and meaningful feedback on both types of homework will be provided and may take various forms. See www.montgomeryschoolsmd.org/uploadedFiles/info/grading/SEC_HomeworkProcedures.pdf.

Districtwide Assessments

Required assessments administered districtwide are one component of the body of evidence.

- A districtwide assessment is required to be given at designated times in identified grade levels and identified middle and high school courses.

Reporting Student Progress

Teachers will provide students and parents/guardians with information about achievement throughout the marking period. This feedback may take several forms, including the following:

- Report cards
- Interims/progress reports
- Online grade reports
- Parent/Guardian conferences
- Informal methods of communication
- Teacher feedback

School Library Media Program

At the beginning of the School Library Media Program section, start with this sentence: School Library Media Programs mission is to promote anti-racist and anti-bias information literacy education while ensuring equitable access to resources that empower students to develop a love of literature and succeed in their college and career goals.

As a teacher and collaborator, school library media specialists play a pivotal role in equipping students with the knowledge and skills necessary to read, evaluate, and utilize both print and digital resources effectively. Each school library media program is focused on promoting student success by providing instruction in information literacy and digital citizenship, developing engaging programming, and maintaining a commitment to continuous collection development.

The Guiding Principles for a robust school library media program:

- **Support Literacy and Achievement:** School library media specialists play an important role in promoting a passion for literature and assisting students with their personal and academic research needs.
- **Instructional Partners:** As educators and instructional partners, library media specialists collaborate with teachers to teach information literacy skills centered on inquiry-based projects aligned with College and Career Readiness (CCR) standards. This curriculum encourages critical thinking and research skills through hands-on learning experiences.
- **Innovative Learning Environments:** School libraries are equipped with makerspaces and innovative spaces that offer applied, experiential, and engaging learning opportunities. These spaces are designed to inspire creativity and develop computational thinking and problem-solving strategies among students.

- **Equity and Diverse Representation:** Library media specialists utilize their expertise to build comprehensive physical and digital collections that ensure equity, accessibility, and diverse representation. This commitment ensures that all students and the school community have access to high-quality, inclusive resources.
- **Community Engagement:** The library serves as the heart of the school. Library media specialists have a unique role which allows them to connect with parents, caregivers, and community resources, working collaboratively to advance student success and strengthen community ties.

Library media specialists ensure that students access and use both print and digital resources efficiently, effectively, and ethically. They enrich the educational experience by curating collections to engage students in a variety of literature and information offered in a variety of formats (ebooks, audiobooks, print, graphic novels, large print, electronic databases, etc.). The library also provides access to cutting-edge technologies, ensuring all students and staff benefit from these resources. Additionally, Media Specialists provide guidance on accessibility, privacy, digital ethics, and copyright issues.

Library media specialists collaborate with classroom teachers to integrate information literacy standards into various subjects, enriching learning experiences with relevant and authentic content. Additionally, they serve as the digital citizenship lead in schools, as well as co-teachers, supporting students across disciplines and incorporating digital citizenship practices—such as safe searching and sharing—into broader lessons for grades 6–12.

MCPS is committed to creating a vibrant, inclusive, and innovative learning environment in our school library programs. If you have any questions or wish to learn more about how you can engage with your school library, please reach out to your school's media specialist.

Student Service Learning (SSL)

The Student Service Learning (SSL) program in MCPS promotes a culture of student involvement and student responsibility through civic engagement. Student Service Learning is a graduation requirement in Maryland. MCPS students must complete a minimum of 75 service-learning hours to graduate. They may begin fulfilling this requirement during the summer after Grade 5 and continue to accrue SSL hours through high school. Students who earn 240 or more SSL hours by the first Friday in April of their senior year will receive a Certificate of Meritorious Service at the time of graduation. Students who have documented in their SSL record 75 hours of service during a middle school year by the first Friday in April of that year will receive the Superintendent's Student Service Learning Award. Preparation, action, and reflection are the three phases of service learning that distinguish SSL from traditional volunteering and community-service efforts.

Service learning hours are earned through the following:

- **School Courses**—Successful completion of specific courses identified in this course bulletin, where the three phases of SSL achieve curricular objectives.

WELCOME TO MIDDLE SCHOOL

- **School Clubs**—Fully participating and completing the three phases of service learning in service activities promoted by school-sponsored clubs and organizations.
- **Community Organizations and Opportunities (must meet MCPS SSL guidelines)**—Fully participating in opportunities with community organizations following the MCPS SSL guidelines listed on the MCPS SSL website, found at www.mcps-ssl.org. MCPS SSL opportunities are identified on the Montgomery County Volunteer Center (MCVC) web page with the MCPS SSL icon found at www.montgomeryserves.org. Students also may seek approval for other types of service learning by submitting MCPS Form 560-50, *Individual Student Service Learning Request*.

All in-person activities for which SSL hours are desired must occur in a public place, be secular in nature, and be supervised by an adult representative from a nonprofit, tax-exempt organization. Students may also engage in designated virtual/remote SSL opportunities under the sponsorship of an approved nonprofit organization or MCPS staff member. Parents/guardians and relatives may not supervise a student directly. One SSL hour is awarded for every one hour of service outside of the instructional day, with a maximum of 8 hours in a 24-hour period. MCPS Form 560-51, *Student Service Learning Activity Verification*, is required to document all activities for which SSL hours are desired. SSL FAQs and more information is available at the MCPS SSL website www.mcps-ssl.org and the MCVC website www.montgomeryserves.org. For individual SSL questions, please contact the SSL coordinator in any middle or high school. (<https://bit.ly/SSLCoordinatorsMS> or <https://bit.ly/SSLCoordinatorsHS>)

High School Credit for Middle School Students

High school credit courses taken in middle school are included on a high school transcript, but grade points are not calculated into the cumulative GPA. An automated process at the end of each semester will determine which courses to include or exclude resulting in the highest cumulative GPA. Transcripts and the Student Grade and Graduation Credit Report (SGGCR) generated after mid-February will reflect this GPA.

Additional information about secondary grading can be found here: www.montgomeryschoolsmd.org/info/grading/report-cardssecondary.aspx.

Middle school students must meet the same requirements as high school students by earning a final grade of A, B, C, or D each semester. Additional information is in MCPS Regulation IKC-RA, *Grade Point Averages (GPA) and Weighted Grade Point Averages (WGPA)*, found at www.montgomeryschoolsmd.org/departments/policy/pdf/ikcra.pdf.

Maryland School Comprehensive Assessment Program

The Maryland Comprehensive Assessment Program (MCAP) consists of tests developed for or adopted by MSDE that are aligned with and measure a student's skills and knowledge as set forth in the content standards for specified courses. Maryland

Comprehensive Assessments (MCAs) are the state and federal mandated assessments in English Language Arts/Literacy and Math for grades 6-8, and Science and Social Studies for grade 8. A student who takes the Algebra 1 MCA in middle school will fulfill the high school graduation requirement as well. Students take these assessments as they complete the corresponding courses. MCAP also includes the Alternate Assessments for select students.

Beginning in 2023–2024, the Maryland Comprehensive Assessment for Science and Government will account for 20 percent of the student's final grade.

MARYLAND COMPREHENSIVE ASSESSMENT (MCA) REQUIREMENTS	
These assessment requirements are subject to change by Maryland State Department of Education (MSDE).	
ALGEBRA 1	Course credit earned in Algebra 1 AND <ul style="list-style-type: none">• Take the Algebra 1 assessment at the end of the B semester course.
ENGLISH 10	Course credit earned in English 10 or equivalent, or English 10 for EMLs AND <ul style="list-style-type: none">• Take the English Language Arts/Literacy assessment at the end of the B semester course.
GOVERNMENT	Course credit earned in National, State, and Local Government or equivalent AND <ul style="list-style-type: none">• Take the Government End of Course (EOC) assessment at the end of the B semester course. The EOC is 205 of the National, State, and Local (NSL) Government Semester B grade. AP Government students must take either the AP Government Exam or the MCAP Government EOC assessment.
SCIENCE	Course credit earned in Biology or equivalent, AND <ul style="list-style-type: none">• Take the Life Science End of Course (EOC) assessment at the end of the B semester course. The EOC is 20% of the Biology Semester B grade. AP Biology students must take the Biology EOC assessment.

¹ *Substitute Test: Students earning qualifying scores on substitute tests (AP/IB) will meet the MCA requirement in that content area.*

² *Transfer Credit: Students transferring from outside Maryland public schools may be eligible to meet some MCA content-area requirements with transfer credit.*

For additional information regarding MCPS graduation requirements, visit www.montgomeryschoolsmd.org/curriculum/graduation-requirements.aspx.

English Language Development (ELD)

Emergent Multilingual Learners (EMLs) who need assistance in learning English receive instruction aligned with the MSDE English language proficiency (ELP) state curriculum. Students are grouped for instruction based on their language needs.

Secondary Students with Limited and Interrupted Formal Education (SLIFE)

The MCPS Secondary Students with Limited and Interrupted Formal Education (Secondary SLIFE) program is designed to meet the linguistic and academic needs of EMLs who have had limited or no previous schooling or significant schooling gaps, due to interrupted or disrupted education. Students in the SLIFE program receive instruction in developing English language proficiency and basic literacy and academic skills. These EMLs also receive instruction and support to facilitate adjustment to both the academic and social school environments. The SLIFE program is offered at selected middle and high schools.

WELCOME TO MIDDLE SCHOOL

Special Education Instruction

If a student has an Individualized Education Program (IEP), the student will continue to receive the identified special education services as they transition to middle school. Students may receive instruction in a variety of service-delivery models in the middle school setting to acquire skills and knowledge. The array of services could include, but is not limited to, consultation with special education personnel about instruction, direct service within the general education classroom, pull-out service in a resource room, direct service within a self-contained special education classroom, or some combination of the above.

If you suspect that your child may have an educational disability and may require an evaluation, please contact the school counselor for information.

Section 504 Plan

A student with a disability may be considered for eligibility and accommodations under Section 504 of the *Rehabilitation Act of 1973*, if the student has a physical or mental impairment that substantially limits one or more major life activities. Teachers or parents/guardians may request an evaluation under Section 504 to determine if the student is eligible under Section 504. Each student who meets the eligibility criteria for accommodations under Section 504 will have a Section 504 Plan developed for that student to use in school. Please visit the MCPS website for more information www.montgomeryschoolsmd.org/departments/student-services/Section-504/ or contact the Section 504 Coordinator at 240-987-8031.

Alternative Programs

Each middle school has staff to develop and implement a school-based alternative program. This program provides supports and direct academic, social emotional, and behavior-management services to students as well as supports to staff. With ongoing guidance and monitoring, students in these programs should be able to experience greater success and remain in the mainstream of school activities.

International Baccalaureate Middle Years Programme

The Middle Years Programme (MYP) is designed for students ages 11 to 16. It provides a framework of learning that encourages students to become creative, critical, and reflective thinkers. The MYP emphasizes intellectual challenge, encouraging students to make connections between their studies in traditional subjects and the real world. It fosters the development of skills for communication, intercultural understanding, and global engagement—essential qualities for young people to become global leaders. Students engage in research and the acquisition and application of critical-thinking skills through all subject areas, as well as study a second language. MYP currently is authorized and offered as a whole-school program at Newport Mill, Silver Spring International, Julius West, Westland, Francis Scott Key, Montgomery Village, Neelsville, Silver Creek, Roberto W. Clemente, and Dr. Martin Luther King, Jr. middle schools.

For more information, contact the Division of Accelerated and Enriched Instruction, 240-740-3110 or visit the website www.montgomeryschoolsmd.org/curriculum/specialprograms/.

Magnet and Consortia Programs

Magnet Programs

The Humanities Communication Program is offered at Dr. Martin Luther King, Jr. and Eastern middle schools. This interdisciplinary humanities program emphasizes writing, media production, and world studies and focuses on developing students' ability to use language and media effectively to present results of their academic inquiry.

The Mathematics/Science/Computer Science Program is offered at Roberto Clemente and Takoma Park middle schools. This program provides experiences for students to deepen their understanding of mathematics, science, and computer science concepts in an integrated manner and at an accelerated pace.

Entrance to these three-year interdisciplinary programs is through a central review process. Program information and admission processes are available at the website <https://www.montgomeryschoolsmd.org/curriculum/specialprograms/middle/>.

Middle School Magnet Consortium

The Middle School Magnet Consortium (MSMC) is made up of three schools: Argyle Magnet School for Digital Design and Development, A. Mario Loiederman Magnet School for Creative and Performing Arts, and Parkland Magnet School for Aerospace Technology. Each school offers an innovative and challenging academic curriculum for all students, and students have the opportunity to take specialty courses that are centered on the magnet instructional focus. The MSMC schools are based on a whole-school magnet model, which engages and challenges all students.

Grade 5 students living within the boundaries for Argyle, Parkland, and Loiederman must choose to attend one of the consortium magnet middle schools. Grade 5 students (and Grade 6 students) throughout Montgomery County may apply through the Choice process to attend one of these three schools. To learn more, visit the website <https://www.montgomeryschoolsmd.org/schools/msmagnet/>.

Accelerated and Enriched Courses

All MCPS middle schools will continue to offer accelerated and enriched courses in mathematics and social studies. These courses are designed for students who demonstrate readiness for accelerating the pace of instruction while diving deeper into concepts alongside academic peers.

Extended Learning Opportunities

Middle School Extended-Day and Extended-Year Programs

Middle schools offer extended learning opportunities during the school year. The extended day (after-school) programs provide additional support designed to meet specific needs of

WELCOME TO MIDDLE SCHOOL

students. These intervention programs in reading, mathematics, and writing are designed to improve students' skills so they can access the on-grade-level or above-grade-level curriculum successfully.

Extracurricular Activities, Interscholastic Sports, and Academic Eligibility

All middle schools offer after-school extracurricular activities and many have the ability to provide activity bus service for those students who stay after the regular school day. The activities may include clubs and/or interscholastic sports. There is no eligibility requirement for students to participate in non-athletic after-school extracurricular activities.

All middle schools offer an interscholastic sports program for students. Each student needs to have documentation of a current physical exam on file with the school to try out and participate and must meet MCPS academic eligibility criteria to try out for interscholastic athletic teams. The team sports available in the fall are boys' and girls' softball and coed cross-country; in the winter, boys' and girls' basketball; and in the spring, boys' and girls' soccer. MCPS middle schools compete against each other during the sports seasons.

For information about academic eligibility for middle school interscholastic athletics, please see MCPS Regulation IQD-RB, *Academic Eligibility for Middle School Students Who Participate in Extracurricular Activities*, www.montgomeryschoolsmd.org/departments/policy/pdf/iqdrb.pdf.

George B. Thomas, Sr. Learning Academy "Saturday School"

Budget dependent: Nine MCPS schools host The George B. Thomas, Sr. Learning Academy, Inc. programs on Saturday mornings (Saturday School), providing enrichment, tutoring, and mentoring for students in Grades Pre-K–12. The George B. Thomas, Sr. Learning Academy, Inc. was established in 1986 by the Mu Nu Chapter of Omega Psi Phi Fraternity, as an outgrowth of the Saturday School Initiative of Blacks United for Excellence in Education. Saturday Schools are open to all students, regardless of their home school. High school sites include Blair, Clarksburg, Einstein, Gaithersburg, Northwest, Paint Branch, Rockville, Springbrook, Wheaton and a virtual option. For more information about Saturday School tutoring and the George B. Thomas, Sr. learning academies, contact your local school or visit www.saturdayschool.org.

Student Well-Being and School Safety

All children deserve a safe and nurturing school environment that supports their physical, social, and psychological well-being. Such safe and nurturing environments are prerequisites for promoting all students' opportunity to learn. MCPS is committed to ensuring that all students have the necessary skills to do the following:

- Become positive members of the school and broader community
- Manage their emotions
- Build academic and social resilience
- Identify and access support for themselves or a friend
- Peacefully resolve conflict
- Make positive decisions

Schools have developed and implemented effective prevention and early-intervention programs, which are age-appropriate and vary based on a student's circumstances. Each middle school has a local discipline policy that aligns with MCPS regulations. Schools integrate character education as a component of the instructional program. A security assistant is assigned to each middle school. Parents/Guardians are encouraged to report concerns about their child's safety to the school administration immediately. Additional resources and information about student well-being and school safety can be found at www.montgomeryschoolsmd.org/departments/studentservices/wellbeing/index-new.aspx and www.montgomeryschoolsmd.org/departments/policy/pdf/coa.pdf. Also, parents/guardians can call the CyberSafety hotline at 301-279-3669 to report concerns.

PLANNING FOR THE FUTURE

High School Special Programs

MCPS high schools offer a variety of instructional models to meet the needs of students. As a middle school student, it is important to become aware of special program options that may be available to you in high school so that you can make the best choices based on your academic strengths, interests, and values. Early investigation of these programs is important to ensure that, while in middle school, you are selecting courses that meet academic eligibility requirements. For information about high school special programs, including International Baccalaureate (IB) programs, career readiness programs of study, or special internships, go to www.montgomeryschoolsmd.org/curriculum/specialprograms/. A selection of Advanced Placement (AP) courses is offered at every high school, as well as access to college courses.

Students whose home schools are part of the Northeast Consortium (Blake, Paint Branch, Springbrook) or the Downcounty Consortium (Blair, Einstein, Kennedy, Northwood, Wheaton) will participate in the school choice process. For more information about this process, please contact the Division of Consortia Choice and Application Program Services at 240-740-7800 or visit the website www.montgomeryschoolsmd.org/departments/schoolchoice.

Maryland Diploma Requirements

The state of Maryland authorizes one diploma for all high school graduates, based on successful fulfillment of four categories of requirements: enrollment, course credit, Student Service Learning (SSL), and assessments developed or adopted by the Maryland State Department of Education (MSDE), collectively referred to as the Maryland Comprehensive Assessment Program (MCAP). All course requirements are summarized in the table to the right.

College and Career Readiness (CCR)

The Blueprint for Maryland's Future Act, House Bill 1372 (HB1372), passed in February 2021. The ultimate goal is to transform Maryland's education system into a world-class model that is competitive, both nationally and internationally, throughout the next ten years. The Blueprint includes the requirement that all middle and high school students receive individualized career advising services, and be assessed for CCR in English and mathematics by the end of Grade 10, using measures identified by the state. The assessment will focus on academic excellence and math mastery, as measured by the student's unweighted cumulative GPA and Algebra 1 grade or

MCAP Algebra 1. Students who do not meet the CCR standard in English and mathematics by the end of Grade 10 will be required to participate in a support pathway in preparation for reassessment. The reassessment may include the same or different assessments as determined and approved by the state. School counselors and staff will work closely with students to determine the best support pathway for each student. All interested students in grades 9-12 will continue to have access to courses in the following pathways: Advance Placement (AP), Career and Technical Education (CTE), and/or International Baccalaureate (IB). In addition, high school students who meet the Montgomery College (MC) requirements for approved college courses, will have access to dual enrollment options.

Course Credits

Students shall be enrolled in MCPS and have earned a minimum of 22 credits that include the following (unless a preapproved MCPS alternative is satisfied):

MCPS GRADUATION REQUIREMENTS		
ENGLISH	4 credits of organized instruction in comprehension of literary and informational texts, writing, speaking and listening, language, and literacy, of which 1 credit shall be aligned with the MCA for English.	
FINE ARTS	1 credit in dance, media arts, music, theatre, or visual art, or a combination of these.	
HEALTH EDUCATION	1 credit	
MATHEMATICS	4 credits, 1 including instruction in algebra aligned with the MCA for algebra or 1 or more credits in subsequent mathematics courses for which Algebra 1 is a prerequisite, and 1 with the content standards for geometry. Students must be enrolled in a Math course each year in High School. This may result in students earning more than four credits in Math for graduation.	
PHYSICAL EDUCATION	1 credit, Honors Health Education A/B	
SCIENCE	3 Next Generation Science Standards (NGSS) credits, including 1 life science credit aligned to the MCA for science, 1 physical science credit, and 1 credit in Earth/space science or an NGSS course with the topics of Earth/space science integrated.	
SOCIAL STUDIES	3 credits, 1 U.S. History credit; 1 World History credit; and 1 National, State, and 1 Local Government credit aligned with the MCA for government.	
COMPUTER SCIENCE, ENGINEERING OR TECHNOLOGY EDUCATION (TE)	1 credit designated TE. Courses satisfying this requirement are designated in the course bulletin and includes the study of computers and algorithmic processes or the application of knowledge, tools, and skills to solve practical problems and extend human capabilities. Complete a state-approved career and technical education program of study (POS) AND a minimum of 0.5 credit in elective courses or more depending on POS.	
ELECTIVES: The additional credits required for graduation may be fulfilled by 1 of the following three options	OPTION 1	OPTION 2
	2 credits of the same world language, which may include two credits of American Sign Language AND 2 credits in elective courses	Complete a state-approved program of study (POS) AND a minimum of 0.5 credit in elective courses or more depending on POS
STUDENT SERVICE LEARNING (SSL)	75 service-learning hours The SSL requirement is prorated for students enrolling or re-enrolling in MCPS after Grade 6.	
Up-to-date graduation requirements by class may be found at www.montgomeryschoolsmd.org/curriculum/graduation-requirements.aspx .		

*As a result of 2021 changes to Code of Maryland Regulations (COMAR) as of this publishing, subject to change by Montgomery County Board of Education.

PLANNING FOR THE FUTURE

Montgomery County Public Schools Certificate of Merit

In addition to the Maryland high school diploma, students who meet the following requirements may be awarded the MCPS Certificate of Merit, a diploma endorsement:

- **Advanced Courses**—Students must earn at least 12 credits in advanced courses designated by MCPS as applicable to the Certificate of Merit (CM). CM courses contribute to a weighted GPA only when the course is also identified as Advanced Level (AL). All courses to be counted toward the Certificate of Merit must be taken for a letter grade.
- **Mathematics Requirement**—Students must successfully complete and/or receive credit for an MCPS Algebra 2 course.
- **Cumulative Grade Point Average**—Students must obtain at least a 3.0 unweighted cumulative grade point average.

Maryland Seal of Biliteracy

High school graduates who can function in two or more languages are equipped with the knowledge and skills to participate successfully in college, careers, and a diverse 21st century society. The Maryland Seal of Biliteracy is a diploma endorsement, authorized by Maryland law, that recognizes a student's high level of proficiency in listening, speaking, reading, and writing in one or more languages other than English. To receive a Maryland Seal of Biliteracy, a student must do the following:

- Pass the Maryland High School Assessment in English 10; AND
- Demonstrate Intermediate high proficiency in listening, speaking, reading, and writing in a language other than English, as measured by assessments that are aligned to ACTFL (The American Council on the Teaching of Foreign Languages) proficiency guidelines.

For more information about the approved assessments, please visit the website <https://marylandpublicschools.org/about/Documents/DCAA/World-Languages/biliteracy/MSDEACTFLAlignedAssessments.pdf>.

MIDDLE SCHOOL COURSES

ENGLISH

The goal of the Secondary English Language Arts program is to create literate, thoughtful communicators, capable of controlling language effectively as they negotiate an increasingly complex and information-rich world. As students leave elementary school, they encounter new academic expectations such as analyzing varied and complex texts, developing arguments, synthesizing information from multiple sources, examining different perspectives, and engaging in self-reflection. Students work to acquire specific skills and strategies in reading literature, reading informational text, writing, speaking and listening, and language.

GRADE LEVEL	COURSE	COURSE CODE #	SSL HOURS

	Grade 6 Adv English	ENG1010	
Grade 7	Grade 7 English	ENG1011	10
	Grade 7 Advanced English	ENG1012	10
Grade 8	Grade 8 English	ENG1013	
	Grade 8 Advanced English	ENG1014	

For course descriptions visit <https://www.montgomeryschoolsmd.org/curriculum/middleschool/index.aspx>.

LITERACY

Literacy and Reading Support

Literacy

Literacy is the ability to think critically and creatively through reading, writing, speaking, listening, and viewing in all content areas. In order for all MCPS students to be ready for the current demands, both in academics and in their future careers, it is essential that they collaborate in authentic literacy experiences throughout their day. Students may experience this in a variety of ways such as reading and discussing a wide variety of complex text, asking relevant questions to clarify their thinking, and constructing arguments and explanations using clear evidence and reasoning. Though skills such as these will be different depending on the content of the class, students will have consistent opportunities to develop them in authentic and content-specific ways.

COURSE	COURSE CODE #
Digital Literacy 1	ENG1030
Digital Literacy 2	ENG1031
Digital Literacy 3	ENG1032
MS Academic Literacy	ENG1029

For course descriptions visit <https://www.montgomeryschoolsmd.org/curriculum/middleschool/index.aspx>.

READING

Reading Support

It is our goal to have all MCPS students reading at or above grade level. During the school year, all middle schools administer reading assessments such as Measures of Academic Progress in Reading (MAP-R) to provide teachers and parents/guardians with information about each student's progress in reading. MAP-R is typically administered in Grades 6, 7, and 8. The assessment provides common data points to use as students articulate from one grade level to another and assists in supporting instructional and program decisions for students.

Students who have been identified as needing additional support have several options in reading. Special reading programs are provided during a period of reading support. Students may also have the opportunity to enroll in an extended-day or Saturday program.

ENGLISH LANGUAGE DEVELOPMENT (ELD)

The English Language Development (ELD) program provides high-quality English language development instruction aligned to grade-level content standards in English Language Arts. These courses focus on helping students develop the academic language proficiency needed to be able to learn content knowledge, skills, and processes and effectively use language to interpret and express their learning in all content areas.

These courses are designed for the development of the English language, focusing on reading, writing, speaking, and listening skills. ELD courses usually begin with extensive listening and speaking practice, building on auditory and oral skills, and support the development of reading and writing. These courses provide an explanation of grammatical structures of the English language, enabling students to progress to a more comprehensive grasp of various formal and informal styles. ELD classes may also include an orientation to the customs and culture of the diverse population in the United States. All ELD courses are aligned to the grade-level standards and curriculum in Grades 6-8.

Emergent Multilingual Learners (EMLs) will be scheduled into English classes designed to meet their level of academic language proficiency in appropriate ways including sheltered, co-taught, single and double periods. The English Language Proficiency (ELP) levels are directly correlated with the ELP levels 1.0-4.4 on the WIDA ACCESS test.

EMLs in mainstream English classes will receive support from an ELD teacher through co-teaching, a seminar course, or a dually-certified ELD/ELA teacher. EMLs in mainstream English classes will also have non-EML peers to engage and interact with to further develop their English Language Proficiency. Throughout their English Language Development Program, they will interact with non-EML peers in all other core subject areas.

MIDDLE SCHOOL COURSES

MATHEMATICS

The goal of the Montgomery County Public Schools Pre- K–12 mathematics program is for all students to achieve mathematical proficiency through mastery of mathematical skills, concepts, and processes. The end result is the ability for all students to think and reason mathematically and use mathematics to solve problems in authentic contexts.

GRADE LEVEL	COURSE	COURSE CODE #	NOTES

	Math 180 Course 1	MAT1010	Elective Credit must be concurrently enrolled in grade-level math.

For course descriptions visit <https://www.montgomeryschoolsmd.org/curriculum/middleschool/index.aspx>.

MIDDLE SCHOOL COURSES

SCIENCE

The middle school science program engages students in the exploration of content through the concepts and practices of science and engineering through a blend of the three dimensions of the Next Generation Science Standards. At each grade level, students will engage in the science and engineering practices to learn the three domains of science (Earth, Life, and Physical Science) with integration of crosscutting concepts embedded throughout to show students the relationships that exist between the sciences and the natural world. Phenomenon-based learning through inquiry and laboratory investigations are an integral part of the program. Problem solving and online investigations are used continually to allow students to investigate authentic problems and reinforce science concepts. The middle school science program is aligned with the Next Generation Science Standards (NGSS) adopted by the state of Maryland as well as the Common Core State Standards for math and ELA and the state requirements for environmental literacy. High expectations and differentiated instruction allow all students to experience a challenging and engaging instructional approach to science education. Students in 8th grade will take the Grade 8 Maryland Integrated Science Assessment (MISA) in the spring which covers science concepts and skills from all three grade levels 6-8. More information can be found at www.marylandpublicschools.org/about/Pages/DAAIT/Assessment/MISA/index.aspx.

Dissection is one of the many instructional methods that may be used in middle school science. Students/parents/guardians may request one of the county's alternatives to dissection in these classes. Alternatives may include such materials as video, charts, diagrams, textbook overlays, and computer simulations.

Additional information regarding the MCPS Secondary Science program can be found at www.montgomeryschools.org/curriculum/science

MIDDLE SCHOOL COURSES

SOCIAL STUDIES

MCPS students will be engaged in rigorous, accessible, relevant, and inclusive social studies inquiry that utilizes primary sources—including multiple perspectives from historically marginalized voices—to develop their capacity to think critically, read closely, communicate clearly, and take action to improve their community, country, and world.

The social studies program in middle school builds chronological and thematic understanding of world and United States history, while developing the social studies strands of geography, economics, political systems, and culture. In addition, students engage in the following literacy and civic practices to prepare them for high school course work and active societal participation:

- analysis of multiple sources, including primary sources that demonstrate multiple perspectives of historically marginalized voices;
- application of concepts and knowledge of the past to problem-solving real-world issues of the present; and
- communication of social studies concepts and knowledge using a variety of formats, with emphasis on analytic and argumentative writing.

In Grade 8, students will take the Grade 8 Social Studies Maryland Comprehensive Assessment in the spring which covers social studies concepts and skills from all three grade levels 6-8.

OUTDOOR ENVIRONMENTAL EDUCATION

The Grade 6 MCPS Outdoor Environmental Education Program, known as “Outdoor Ed,” provides students with a three-day residential experience focused on the driving question, “How do our actions and choices impact the health of the watershed?” Using relevant, engaging, and interdisciplinary lessons, students explore the local ecosystem and their role in it. The natural world is both classroom and laboratory for teaching and learning at Outdoor Ed, and literacy and mathematics are authentically integrated. The core lessons of this Meaningful Watershed Educational Experience include the following:

- field experiences where scientific practices are used to investigate the environment, and where components of the MCPS Grade 6 curriculum, are learned in a real-world setting. Environmental science lessons focus on the local watershed including water-quality analysis of a local stream, use of a simulation to study population dynamics, and investigation of the impact of humans on the environment.
- engaging lessons created to foster inquiry, collaboration, critical thinking, and problem solving.
- structured and unstructured opportunities for building positive interpersonal relationships as students learn and practice relationship-building skills with their peers and teachers. Making a new friend is reported by more than 90 percent of students at the conclusion of Outdoor Ed!
- motivation and opportunity for students to be active stewards of the environment as they investigate how their choices impact the environment and choose a daily action to improve it. The environmental learning and actions form the environmental Student Service Learning experience, which is an integral part of the Grade 6 science curriculum.

At Outdoor Ed, students live in dormitory-style housing at one of three sites, work collaboratively to take care of the dorms, and serve each other at meals. Teachers from each middle school accompany their students and teach several of the lessons at Outdoor Ed along with the Outdoor Ed coordinators. A fee is charged for the residential setting of the program, set by the Board of Education; alternative payment options and waivers are available. Speaking volumes about Outdoor Ed, MCPS high schools seniors commonly cite this unique experience among their three most remembered and cherished learning events in their 12 years of education.

MIDDLE SCHOOL COURSES

PHYSICAL EDUCATION

The middle school physical education program focuses on three areas; health enhancing physical fitness and activity, movement skills and concepts, and personal and social responsibility. Each area allows for growth for the adolescent learner to apply the skill-based themes of elementary school to a more rigorous program. Students will receive instruction for three quarters a year. The focus shifts to improving independent movement and physical activity within small-sided (not-regulation sized) game play and practice tasks. Students will improve over their three years by moving from a focus on improving individual skill to improving the outcomes for a team or group. All games and activities promote decision-making and tactical problem solving through critical thinking about personal fitness and activity within individual and group dynamics. Physical education aligns with Be Well 365 emphasizing lifelong positive health-related attitudes and behaviors that promote self-reliance and self-regulation.

COURSE	COURSE CODE #
PE Grade 6	HPE1003
PE Grade 7	HPE1004
PE Grade 8	HPE1005

For course descriptions visit <https://www.montgomeryschoolsmd.org/curriculum/middleschool/index.aspx>.

HEALTH EDUCATION

Comprehensive Health Education promotes positive health-related attitudes and behaviors that support self-reliance and self-regulation, while developing health-literacy skills and lifelong wellness. The health-literacy skills emphasized throughout the program include analyzing influences, accessing information, interpersonal communication, decision making, goal setting, self-management, and advocacy.

The Family Life and Human Sexuality unit will include age-appropriate instruction on the meaning of “consent” and respect for personal boundaries in every grade in which the curriculum is taught. Health Education aligns with Be Well 365 by emphasizing lifelong positive health-related attitudes and behaviors that promote self-reliance and self-regulation for all students.

COURSE	COURSE CODE #
Health Grade 6	HPE1000
Health Grade 7	HPE1001
Health Grade 8	HPE1002

For course descriptions visit <https://www.montgomeryschoolsmd.org/curriculum/middleschool/index.aspx>.

WORLD LANGUAGES

The goal of the world languages program is to prepare students to be linguistically and culturally competent in languages other than English. The ability to communicate in a culturally appropriate manner with speakers of other languages is the key to success in the increasingly diverse global community of the 21st century. As students develop proficiency in world languages and an understanding of the underlying values and beliefs of other cultures, they gain the skills that are essential to meaningful communication. World languages courses must be taken in sequential order.

Students are encouraged to pursue World Languages offerings as early as possible in middle school. The offerings vary by school. They are high school credit-bearing courses. Please see page 5 for more information about high school credit in middle school. Course numbers are language- and level-dependent. The prerequisite for all courses, except 1A, is successful completion of the preceding course or a local placement test.

Level 1A/1B

HS credit

Students begin to learn to communicate orally and in writing in a culturally appropriate manner about topics related to daily life. They interpret basic information when listening and reading. Vocabulary and basic grammatical structures are taught within the context of these familiar topics. Culture is embedded throughout the course.

NOTE: Levels 1A and 1B may be offered in middle school as full-year courses. In that case, students must pass the full year of 1A and the full year of 1B in order to earn one high school credit.

Level 2A/2B

HS credit

Students expand their ability to communicate orally and in writing in a culturally appropriate manner about topics related to daily life. They interpret information when listening and reading. Vocabulary and grammatical structures are taught within the context of these topics. Culture is embedded throughout the course.

Level 3A/B

HS credit

Students continue to expand their ability to communicate orally and in writing in a culturally appropriate manner about a variety of familiar topics. They interpret detailed information when listening and reading. Vocabulary and more complex grammatical structures are taught within the context of these topics. Culture is embedded throughout the course.

COURSE	COURSE CODE #	NOTES
Spanish Literacy 1 A/B	WLG2150	HS Credit
Spanish for Spanish Speakers 1 A/B	WLG2141	HS Credit
Spanish for Spanish Speakers 1 A/B	WLG2142	HS Credit

Spanish for Spanish Speakers 1 A/B and Spanish for Spanish Speakers 2 A/B are offered in certain middle schools. Spanish

MIDDLE SCHOOL COURSES

for Spanish Speakers courses provide language instruction for students with some proficiency in Spanish, either because it is their first language or it is spoken in their home. Each course integrates history, culture, language, and connections related to the Spanish-speaking world.

World Language Immersion

Students who have completed an MCPS elementary school immersion program are encouraged to continue at the middle school level. Students who did not participate in the elementary program may test into an immersion program, if space is available. The following middle schools offer these courses: Silver Spring International Middle School (Spanish/French), Westland Middle School (Spanish), Gaithersburg Middle School (French) and Hoover Middle School (Chinese).

The immersion language courses are high school credit-bearing courses. Please see page 5 for more information about high school credit in middle school.

Grades 6–8 French Language Immersion (WLG 2053 through WLG 2055)

HS credit

A two-period program of instruction enables students to enhance their language development through one period of language class and one period of the MCPS social studies curriculum in French.

Grade 6–8 Spanish Language Immersion (WLG 2147 through WLG 2149)

HS credit

A two-period program of instruction enables students in Grades 6 and 7 to enhance their language development through one period of language class and one period of the MCPS social studies curriculum in Spanish. In Grade 8, students continue with one period of language instruction.

Grade 6 Chinese Language Immersion (WLG 2034)

HS credit

This one-period course continues to build on the language skills acquired in the elementary school immersion program. Students transition into the MCPS Chinese 2 course in Grade 7.

FINE ARTS

The fine arts are important to every child's development and play a vital role in providing students with a well-rounded, world-class education. Dance, Music, Theatre, and Visual Art promote academic excellence, creative problem-solving, and social emotional learning, which are essential components of college and career readiness. In order to meet the evolving needs of a 21st century learner, the fine arts focus on developing artistic literacy by engaging in the artistic processes (creating, performing/presenting, responding, and connecting) through authentic materials and techniques. The fine arts introduce students to new world views and cultures, help students to value the perspectives of others, and enable students to creatively express a personal viewpoint. Through artistic experiences, students become independent and divergent thinkers, self-motivated workers, and innovators. All students have access to fine arts programs in middle school. In Grades 6–8, students may specialize in one or more of the fine art forms.

DANCE		
COURSE	COURSE CODE #	NOTES
MS DANCE 1	ART1064	No previous dance experience required.
MS DANCE 2	ART1065	Students must complete MS Dance 1 or audition to qualify for this level.
MS DANCE 3	ART1066	Students must complete MS Dance 2 or audition to qualify for this level.

VISUAL ART		
COURSE	COURSE CODE #	NOTES
STUDIO ARTPATHWAY: Students will explore a variety of traditional ARTmedia and techniques, including drawing, painting, printmaking, sculpture, ceramics, and functional craft to create artworks.		
MS STUDIO ART1	ART1024	No previous ART experience required.
MS STUDIO ART2	ART1025	Students must complete MS Studio ART1 or submit a portfolio to qualify for this level.
MS STUDIO ART3	ART1026	Students must complete MS Studio ART2 or submit a portfolio to qualify for this level.
MS DRAWING & 2D ART3	ART1023	Students must complete MS Studio ART2 or submit a portfolio to qualify for this level.
MS CERAMICS/SCULPTURE 3	ART1039	Students must complete MS Studio ART2 or submit a portfolio to qualify for this level.

For course descriptions visit <https://www.montgomeryschoolsmd.org/curriculum/middleschool/index.aspx>.

MIDDLE SCHOOL COURSES

DIGITAL ART& PHOTOGRAPHY PATHWAY: Students will explore digital ART and photography using digital hardware and software platforms that reflect contemporary practices and industry standards.

MS DIGITAL ART& PHOTO 1	ART1018	No previous ART experience required.
MS DIGITAL ART& PHOTO 2	ART1019	Students must complete MS DIG ART& PHOTO 1.
MS DIGITAL ART3	ART1022	Students must complete MS DIG ART& PHOTO 2.
MS PHOTOGRAPHY 3	ART1020	Students must complete MS DIG ART& PHOTO 2.

INNOVATIVE ARTDESIGN PATHWAY: These year-long courses integrate visual ART and computational thinking . By the end of the course, students will have mastered both the Maryland Technology Education Standards and the National Visual ART Standards . Students will investigate real-world problems, and then seek to design and create meaningful solutions via computational thinking and the artistic process. This course cannot be part of a rotation.

MS INNOVATIVE ART& DESIGN 1	ART1008	No previous ART experience required.
MS INNOVATIVE ART& DESIGN 2	ART1007	Students must complete a LEVEL 1 ART pathway course.
MS INNOVATIVE ART& DESIGN 3	ART1016	Students must complete a LEVEL 2 ART pathway course.

Band 3	ART1035	Students must complete Band 2 or audition
Beginning Orchestra MS & Creative Thinking	ART1038 A/B	Available to students in grades 6-8
Orchestra 1 MS & Creative Thinking	ART1045 A/B	Must complete Beginning Orchestra or elementary instrumental music
Orchestra 2	ART1046	Students must complete Orchestra 1 or audition
Orchestra 3	ART1047	Students must complete Orchestra 2 or audition

THEATRE

COURSE	COURSE CODE #	NOTES
Theatre 1	ART1061	Available to students in grades 6-8
Theatre 2	ART1062	Students must complete Theatre 1
Theatre 3	ART1063	Students must complete Theatre 2

For course descriptions visit <https://www.montgomeryschoolsmd.org/curriculum/middleschool/index.aspx>.

MIDDLE SCHOOL COURSES

FAMILY AND CONSUMER SCIENCES

Family and Consumer Sciences (FACS) programs focus on processes and skills that enhance individual, family, and societal well-being. Programs reflect the National Standards for FACS Education and integrate math, science, English, and social studies. A project-based curriculum encourages students to investigate and solve authentic problems. Students learn to use communication and critical-thinking skills as well as current technologies to make informed decisions.

EDU 1000: CREATIVE FACS

EDU 1002: FACS GRADE 7

EDU 1003: FACS GRADE 8

MULTIMEDIA LITERACY

Lights, Camera, Literacy! (LCL!) (ENG 1024 and ENG 1025)

This course increases literacy in both written and visual text, improves collaboration skills, builds confidence and motivation, and provides opportunities for high-level thinking via specific strategies. Students transfer their skills as viewers of film to skills on the written page, as well as learn how to read visual text and create effective visual communications.

The course focuses on all three areas of the MCPS Moving Image Education—integrating, deconstructing, and creating the moving image. Students transfer reading skills.

Lights, Camera, Film Literacy! (LCFL!) (ENG 1023)

This course offers a study of film and film history as the core for teaching more advanced literacy skills. Students learn the physics and history of motion pictures, as well as how to apply filmmaking techniques to their own visual communications.

Students read one novel as well as shorter written text selections and screenplays. The eight units include How Movies Got their Start; Silent Narrative Films; Early Talkies; Early Color; Genre Classics: The Golden Age of Hollywood; Classic Adaptations: The Golden Age of Hollywood and Beyond; Documentaries; Animation; and The Business of Film and Film Festivals. *(Completion of Lights Camera, Literacy! is not required.)*

Lights, Camera, Media Literacy! (LCML!) (ENG 1027)

This course offers a study of media, its history, and basic related physics concepts as the core for teaching even more advanced literacy skills. Lights, Camera, Media Literacy! presents a timeline of media with focus on the history and physics of communication from the earliest times via storytelling by troubadours and griots to today's mass media world. The units include Storytelling; The Printing Press; Newspapers & Print Advertising; Photography & Film; Radio; Television; Computers and the Internet; and Media & Our World. Students develop related multimedia projects

within each of these units. *(Completion of Lights Camera, Literacy! or Lights, Camera, Film Literacy! is not required.)*

The LCL! course series is of high interest; allows for ease of differentiation; and addresses the visual, auditory, and kinesthetic learner. The LCL! strand focus is on increasing literacy in both written and visual texts, authentic use of vocabulary, improving collaboration skills, building confidence and motivation, and providing opportunities for higher-level thinking.

SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS (STEM)

Computer Science ~ Engineering ~ Technology Education

STEM electives in middle school are important building blocks in the preparation of all students for demands of college, careers, and the rapidly changing 21st century workforce. STEM courses teach students to apply mathematics, science, and technical knowledge to innovate and solve problems. MCPS is committed to providing a well-rounded education for middle school students that includes an engaging, hands-on experience with computational learning. Middle school STEM electives teach students computational and technological literacy through coding, computer science, engineering, robotics, and other technology and design-related experiences. This program promotes creative problem solving and an exploration of multiple STEM-related fields of study and careers.

In order to provide students with the widest variety of STEM field experiences, build background skills and knowledge for rigorous computer science and engineering courses and programs in high school, and the opportunity to earn high school credit in middle school, the recommended middle school course progression is:

MIDDLE SCHOOL COURSES

GRADE 6 MS CODING, ENGINEERING, AND ROBOTICS DESIGN MARKING PERIOD STEM ELECTIVES*

<p>Coding and Game Development (ITC 2069) Students will learn the elements of good game design and the different game genres as well as basic video game coding concepts including racing, platform, launching, and more. Students will apply computational thinking to their game designs. Students will be introduced to various programming languages.</p>	<p>Introduction to Technology & Engineering (ENR 1022) Students will be introduced to technological systems and learn and apply the Engineering Design Process to a variety of challenges. Students are introduced to Computer Aided Design using TinkerCAD.</p>
<p>Engineering Design & Modeling (ENR 1023) Students utilize the Engineering Design Process and technical skills of isometric sketching, multiview drawing, and Computer Aided Design using TinkerCAD to design solutions to engineering challenges.</p>	<p>Robotic Design 6 (ITC 2068) Students will apply coding and programming skills and problem-solving to make physical models respond to commands. Students will collaborate, communicate, think computationally, program, debug and create models while learning to solve open-ended, real-life problems.</p>

*Schools may offer 1 to 4 of these quarter-long courses

GRADE 7 MS PRINCIPLES OF IT, CYBERSECURITY AND ENGINEERING COURSES MARKING PERIOD STEM ELECTIVES*

<p>Principles of IT: Digital Systems 7 (ITC 2070) Students will explore digital systems and devices by investigating the key components. They begin with defining, identifying and classifying hardware and software and then investigate input and output devices, storage and processing elements. Students will learn a variety of problem-solving strategies to apply to problems with digital systems. Students will further develop their understanding of software applications, extensions and Cloud-based programs.</p>	<p>Principles of IT: Cybersecurity (ITC 2071) Students will learn how information travels across the Internet and networks and how to protect electronic information. Real-world cybersecurity problems are explored along with current best practices to protect users, systems, and networks. Students will learn about a variety of careers in cybersecurity. Course content includes the legal and ethical issues involved with computer technology use.</p>
<p>Innovation and Engineering Design 7 (ENR 1025) Students learn the importance of invention and innovation in technological development and apply engineering-thinking skills and technical skills to complete each step of the engineering design process, creatively addressing real-world challenges. Students learn or extend technical drawing and Computer Aided Design skills.</p>	<p>MS Applied Engineering Design (ENR 1024) Students learn how societal factors affect technological development and apply the Engineering Design Process, engineering-thinking skills, and technical skills including Computer Aided Design to design engineering solutions to real-world challenges.</p>

*Schools may offer 1 to 4 of these quarter-long courses

OTHER GRADE 7 ELECTIVES

Computer Applications with Analysis (ITC1002)

Grade 8 STEM Electives

In Grade 8, students have the opportunity to take a high school technology education credit-bearing course. In these courses, MCPS utilized external curriculum from national organizations such as Code.org and Project Lead the Way to include study of coding, robotics, and engineering design processes.

<p>Foundations of Computer Science TE A/B (ITC2083)# HS credit</p>
<p>Introduction to Engineering Design A/B (TEC 2017 A/B)# HS credit, Corequisite: Algebra 1 or Higher</p>
<p>Global Technology Systems (ENR 1021)</p>
<p>Website Development A/B (ITC 2025 A/B)* HS credit</p>

#This course satisfies the one credit Technology Education requirement for High School Graduation.
*Restricted to schools where currently offered

**Please check with your
child's school about its
2025–2026 elective course options.**

MCPS NONDISCRIMINATION STATEMENT

Montgomery County Public Schools (MCPS) prohibits illegal discrimination based on race, ethnicity, color, ancestry, national origin, nationality, religion, immigration status, sex, gender, gender identity, gender expression, sexual orientation, family structure/parental status, marital status, age, ability (cognitive, social/emotional, and physical), poverty and socioeconomic status, language, or other legally or constitutionally protected attributes or affiliations. Discrimination undermines our community’s long-standing efforts to create, foster, and promote equity, inclusion, and acceptance for all. The Board prohibits the use of language and/or the display of images and symbols that promote hate and can be reasonably expected to cause substantial disruption to school or district operations or activities. For more information, please review Montgomery County Board of Education Policy ACA, *Nondiscrimination, Equity, and Cultural Proficiency*. This Policy affirms the Board’s belief that each and every student matters, and in particular, that educational outcomes should never be predictable by any individual’s actual or perceived personal characteristics. The Policy also recognizes that equity requires proactive steps to identify and redress implicit biases, practices that have an unjustified disparate impact, and structural and institutional barriers that impede equality of educational or employment opportunities. MCPS also provides equal access to the Boy/Girl Scouts and other designated youth groups.*

It is the policy of the state of Maryland that all public and publicly funded schools and school programs operate in compliance with:

- (1) Title VI of the federal Civil Rights Act of 1964; and
- (2) Title 26, Subtitle 7 of the Education Article of the Maryland Code, which states that public and publicly funded schools and programs may not
 - (a) discriminate against a current student, a prospective student, or the parent or guardian of a current or prospective student on the basis of race, ethnicity, color, religion, sex, age, national origin, marital status, sexual orientation, gender identity, or disability;
 - (b) refuse enrollment of a prospective student, expel a current student, or withhold privileges from a current student, a prospective student, or the parent or guardian of a current or prospective student because of an individual’s race, ethnicity, color, religion, sex, age, national origin, marital status, sexual orientation, gender identity, or disability; or
 - (c) discipline, invoke a penalty against, or take any other retaliatory action against a student or parent or guardian of a student who files a complaint alleging that the program or school discriminated against the student, regardless of the outcome of the complaint.**

Please note that contact information and federal, state, or local content requirements may change between editions of this document and shall supersede the statements and references contained in this version. Please see the online version for the most up-to-date information at www.montgomeryschoolsmd.org/info/nondiscrimination.
