

FY 2007 QUESTION NUMBER: 6

QUESTION:

Have there been any conversations with the City of Rockville regarding security at Richard Montgomery High School in light of the construction activity there?

BUDGET PAGE REFERENCE: NA

ANSWER:

Staff is not aware of any discussions with the City of Rockville concerning security at Richard Montgomery High School regarding the current construction project. There have been discussions between the school staff and the Department of School Safety and Security about additional security resources because of the construction work. The Department of School Safety and Security is working with the principal to ensure there are adequate security resources assigned to the school while the construction work is underway. The construction manager for the project is responsible for security of the work areas and will make sure the construction activities do not interfere with the school operations or create security/safety problems.
