

Out-of-the-box, get-your-hands-messy, ignite-your-passions kind of learning.

At Green Acres School, students from Pre-K–8th grade experience a dynamic program where...

They are deeply known by their teachers.

They have a 15-acre wooded campus as a classroom.

They have a voice and use it to advocate for themselves and others.

Their passions are reflected in the curriculum.

They are challenged to grow as learners and leaders.

They are curious, determined, and love to learn.

They are fully prepared for high school, college, and beyond.

Get to know us:
