

NOVEMBER NEWS

third grade

A note from the teachers

Please remember to send your child with a coat to school! We have the first recess and it is still cold when we go outside! Don't forget to check your child's folder each evening for math and reading homework.

Reminders

Don't forget to **sign up** for Parent Teacher Conferences! If you need to reschedule, please contact your child's teacher.

Please remember to contact your student's teacher or call the main office at (240)-740-0800 for any dismissal changes. And call the office when your student will be absent. Thank you.

Ms. Madeline Carr: madeline_r_carr@mcpsmd.org

Ms. Bella Gliem: bella_gleim@mcpsmd.org

Ms. Kadian Morgan: kadian_l_morgan-graham@mcpsmd.org

Math Focus

We are wrapping up Module 2 where students will explore measurement using units of kilograms, grams, liters, milliliters, and intervals of time in minutes. We will begin Module 3 the third week of November. Module 3 builds directly on students' work with multiplication and division in Module 1. Module 3 extends the study of factors from 2, 3, 4, 5, and 10 to include all units from 0 to 10, as well as multiples of 10 within 100.

See below for parent tip sheets.

Reading and Writing Focus

We will be finishing up Unit 3 where we are learning about the skeletal, muscular, and nervous systems that make up our bodies.

We have further explored the senses of sight and hearing and how our eyes and ears work. We will also write about one of the body systems they have studied in this unit.

We will also be starting Unit 4 this month. Students will learn about Roman geography and history, government, major leaders, and monumental battles. They will also study the rise and decline of the Roman Empire. Students will be introduced to a writing portfolio, which they will reference as they collaborate, share ideas, and give feedback on their writing.

Science and Social Studies Focus

We will be doing Social Studies during the month of November. Students will work through two modules. In Module 1, students will learn about different geographic features of the land using features and regions of Maryland. In Module 2, students will learn about multiple perspectives of decision-making to protect/modify the environment.

School Update
