December 2024 News

Events

December 12: No School for Pre-K & PEP -Teacher Professional Development

December 20: Winter Festival

December 25 -January 1: Winter Break - No School

Reminders

- Please remove student work from folders
- Please label student jackets/hats/gloves and water bottles
- Please send in a pair of extra clothes for winter weather

Eureka Math

- Students will count groups of 6 and 7 objects in linear and circular configurations.
- Students will recognize pre-written numerals 1, 2, 3, 4, 5, 6, and 7.
- Students will continue to practice with adding “one more.” For example, students will see number 6 as 5 and 1 more. Students will see number 7 as 6 and 1 more.
- Students will explore the relationship of numbers 6 and 7 to 5. For example, 7 is 5 and 2 more.

CKLA Reading

We will be learning all about animals at school. We can't wait for your child to share the things he or she already knows with the class. At school, we will learn the names of many animals and how animals' body parts help them survive. We will even have an Animal Hospital set up in our Dramatic Play Center! In our Small Groups, we will also be practicing telling stories, rhyming, drawing and writing, and counting syllables in words.

5 Pre-writing strokes for letter formation.

Slant right

Things to Work on at Home

1. Read Aloud Each Day

As you read, point to and label the various animals in the story. Ask students what they know about these animals as you read.

2. Sing Nursery Rhymes

Your child may come home singing and doing the motions for the nursery rhymes we are learning.

3. Go on a Nature Walk and Talk about Animals

Your child will be learning how to make observations about many different kinds of animals. Help your child practice observing and describing animals you might see.

4. Practice Drawing and Writing

Have your child practice writing his/her name at home by signing drawings with either his/her first initial or whole name. You could also write your child's name and have him/her copy it underneath.
