

FIFTH GRADE SPELLING/WORD STUDY

1. Look, Say, Cover, Write, and Check –
 - Write each of your words in the first column. Be sure to spell each word correctly.
 - Look at the word and say the word aloud, naming the letters in the word.
 - Cover the word and write the word in the middle column. Check the spelling of the word. If you spelled the word correctly, wonderful!
 - If the word is spelled incorrectly, repeat the process, and make sure the word is spelled correctly in the third column.
2. Making Connections –
 - Choose 12 out of your 15 Core Words for Making Connections.
 - In the middle column, write each list word and the part of speech.
 - For the left column, find at least 3 words that are word family words (other forms of the word), synonyms, antonyms, or words within the words. A synonym or antonym is one word and is the same part of speech as your list word. You may not find any synonyms or antonyms for some of the words.
 - In the right column, write the definitions (meanings) of your words. Write the definitions in your own words and be sure that you understand them.
3. Ways to Practice Your Spelling Words – choose your 10 most challenging words and complete any 2 of the following activities for each.
 - Produce antonyms and synonyms
 - Rewrite definitions
 - Identify examples and non-examples of the word
 - Use more than one new word in a sentence
 - Create sentences that contain the new word
 - Create scenarios or stories in which the word is used
 - Create silly questions using the word

Attach your practice papers to the spelling/word study packet and turn them in.

4. Buddy Check – Do your Buddy Check at home with a family member. Turn in your Buddy Check with all words corrected and the form filled in (both front and back) for each word spelled incorrectly.
