INTRODUCTION

Welcome to the summer math packet for students entering the fifth grade compacted math class. Activities are designed to support instruction in the MCPS curriculum in both its content and presentation. Activities may be done independently or with a parent, guardian, or older brother or sister. Talking about the problem can be an important part of completing some activities.

- Students set their own goals for completing math activities.
- Students use the math packet to complete and record responses for the activities.

*****SOLVE THESE PROBLEMS WITHOUT THE USE OF A CALCULATOR AND SHOW ALL WORK*****
