First Name: ___________________ Last Name: ___________________

First Grade Teacher: __________________

Second Grade Teacher (fill out in August): __________________

Parent/Guardian Signature: __________________

Attached are math and reading activities for your child to do over the summer. A parent signature above will indicate that your child has completed this packet prior to the start of school. Students can record their work on any paper they choose and do not need to turn in any work. This completed cover sheet is all that needs to be turned in no later than the end of the first week of school. Have your child give this cover sheet to next year’s homeroom teacher to earn a reward in September.

For additional reading activities from the Montgomery County Public Library visit http://montgomerycountymd.libguides.com/kidsite

For additional math activities visit the SKR website at http://www.montgomeryschoolsmd.org/schools/ridees/

Have a great summer!
# First Grade Going Into Second Grade Summer Math Work – Sally Ride ES

This summer math work is for students entering Second Grade. This is recommended, but not required. Reviewing the learned skills will maintain the foundation for math success at the next grade level.

Write the numbers that are 10 more and 10 less.

<table>
<thead>
<tr>
<th>10 less</th>
<th>10 more</th>
</tr>
</thead>
<tbody>
<tr>
<td>15</td>
<td>36</td>
</tr>
</tbody>
</table>

Jane had 3 pens. Chris gave her some more pens. Then Jane had 9 pens. How many pens did Chris give Jane?

Determine if the equation is true or false.

6 + 8 = 16

**True**  **False**

Identify the number that makes the equation true.

27 + 4 = ___

25  47  31

Write an addition word problem for another family member to solve.

Dave saved three nickels, one quarter and two dimes. How much money did he save altogether?

Circle the number that is 10 less than 47.

56  37  57  32

Write the correct time.

There are 15 scarves. 6 of them are green and the rest are yellow. How many yellow scarves are there?

Solve for the unknown.

8 + 6 = ____________

Rope P is 14 units long. Rope Q is 8 units shorter than rope P. How long is rope Q?

What is the total length of rope P and rope Q?

The design of the activities is meant to support instruction in the new curriculum in both its content and presentation. Therefore, the activities are not to be done as independent problems, but to be worked on with a parent, guardian or older brother or sister. Talking about the problem is an important part of completing each activity. On the backside of this calendar are recommended math websites for more reinforcement of math concepts and computation. (Created by the Sherwood Cluster & adapted by Sally Ride ES)
http://www.allmath.com/
This site has flash cards and links to other sites for games, math humor, worksheets, math help and more.

http://www.aplusmath.com
This site has basic facts flash cards and a game room, worksheets, multiplication table practice and more.

http://www.mathfactcafe.com
This site has a pencil next to pre-made cards so kids can do the facts and have the computer check them. Kids can print them out and also put in their own numbers and make their own worksheets.

http://www.funbrain.com
This site has easier to harder addition and subtraction computation and problem solving. It also has language and grammar skills activities

http://www.dositey.com/
This site is a lot of fun and is good for 2 digit addition with and without regrouping

http://www.24game.com
This site has math games using basic operations

http://www.coolmath4kids.com
This site has a wide range of topics and will give you step-by-step instructions.

http://www.abc.net.au/countusin/games
Each game is designed to help kids understand basic concepts in math. This site has a variety of math games i.e. volume, length, halves, chance, numbers, time, sorting, subtraction, and addition. It is better for students of the primary grades.

http://www.learningplanet.com
This site has games by grade level but with advertisement and a subscription. There are some free games.

http://www.gamequarium.com
This site has math activities for K-6.

http://www.SETGame.com
This is a card game to build students’ visual thinking and pattern skills in math. Commercial, but does have some great free puzzles.

http://www.math.com
Good resource of how to do problems

http://www.mathcats.com
This is an interactive fun site

http://www.spikesgamezone.com
Lots of math games

http://www.funschool.com
This site has games, but also commercial advertising

http://www.figurethis.org
This site gives you ideas for fun hands-on math activities. Good for upper grades

http://www.kidsites.com
List of sites for math as well as other subjects.

http://timezattack.com
FREE home version for practicing multiplication facts (also new versions for division, addition, and subtraction!)

http://abcy.com
Loads of math games for K-5 as well as games for reading and language arts
